DEZIFOG

INSTRUCTION FOR USE

Attention!

Users must apply work safety and health and waste management measures indicated in the label and safety data sheet.

Use

Dezifog is used for disinfection of various premises and surfaces, except medical devices and their surfaces, in healthcare facilities (hospitals, dental offices, nursing homes), public facilities (hairdressers, beauty and tattoo parlours, schools, kindergartens, petrol stations), except surfaces in swimming pools, sports clubs, saunas that may come into contact with the skin of service users, food industry and catering companies and households. Cannot have direct contact with food.

Close windows and doors in the room before usage. No visible impurities can be present on the surface to be disinfected.

Wear personal protective equipment.

Dezifog is sprayed using UR FOG fog generator in the closed room according to the recommendations indicated in the

equipment instruction. The room must be thoroughly filled with emitted fog.

After 90 minutes the generator-sprayed aerosol is completely dispersed and evenly spread on the surface. After disinfection premises have to be thoroughly ventilated.

Output: 0.4 ml/m³. Exposure time: 9 min.

After disinfection surfaces that are likely to be in contact with food have to be thoroughly rinsed with water. Product can be used only in premises where no unauthorized persons, animals, aquariums and food products are present.

For specific use, depending on the intended use, it is recommended to receive instructions for use individually prepared by the representative of the manufacturer.

Precautionary measures

Keep out of reach of unauthorized persons.

Use only together with UR FOG fog generators.

People and domestic animals cannot be present in the treated and not ventilated room.

Upon doubts that biocidal product can damage disinfected object, always make a test in the small area.

Package to be stored in the temperature not exceeding 25 °C, tightly closed in the place out of reach of unauthorized persons.

It is forbidden to use not in accordance with intended use and the instruction for use. Take care to keep away from contact with eyes, skin or clothes.
